

# PUMPING AERMOTORS.

# AERMOTOR COMPANY'S PRICE LIST OF REPAIRS.

## FOR 8-FT. PUMPING AERMOTOR

The above cuts illustrate the shape of the various parts of our Pumping Aermotors. Corresponding parts in each pumping mill bear the same number—the sizes being indicated by letters: A for 8-ft., D for 12 ft., and F for 16-ft. In ordering be particular to give both letter and number.

A 13, D 13 and F 13 are furnished in halves for repairs when so ordered, and may be put in place without taking down mill. The parts of the new 10-ft. mill do not correspond to these and must be ordered from the price list.
