

Repairs for Fairbanks Steel Windmill

AS MADE FROM 1893 TO 1904

940 597-7735

In ordering repairs, be careful to give the important letter preceding number of parts which indicates the size of mill. To correctly fill orders for repairs for Fairbanks-Morse Steel Windmills we must have the following information: Diameter of wheel, NUMBER and LETTER on casting, the date purchased. (The "number" on casting indicates piece wanted. The letter indicates the style and size of mill. "T" indicates 8-foot steel mill. "U" indicates OLD STYLE 10-foot steel mill. "UW" indicates 1898 to 1904 pattern 10-foot steel mill. "VW" indicates 12-foot steel mill. "WW" indicates 16-foot steel mill.) Also state whether mill is fitted with plain or graphite bearings. Repairs for "Babbitt and Graphite" windmills ARE NOT INTERCHANGEABLE. Delay and annoyance may be avoided by giving us full information when ordering, otherwise we shall be obliged to write for it.
