

The Dempster Vaneless Wind Mill.

BEING THE LATEST AND BEST.

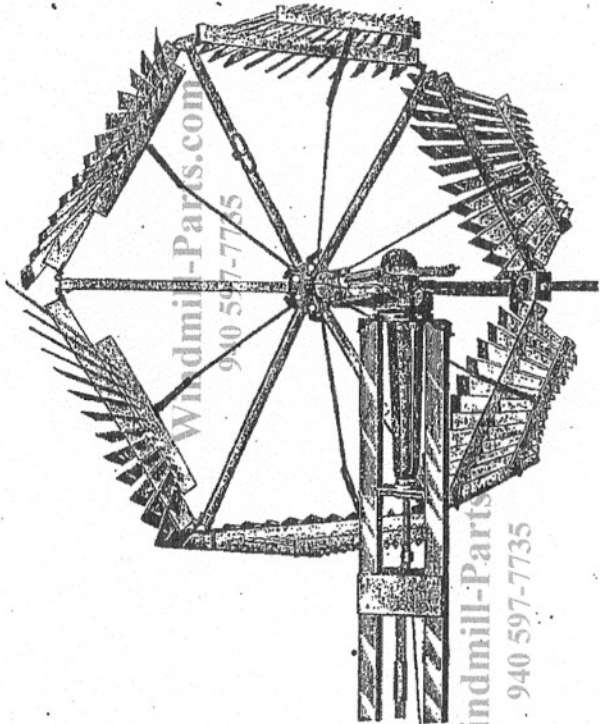

Fig. 285.

Simple, durable and easily managed. A favorite among farmers. It combines all the latest improvements. It has been well tried by some of our best wind mill men and pronounced good. It is one of the standard mills of today.

Fitted for either two or four mast tower. For Repair List see Page 103.

We also manufacture a twelve-foot Vaneless Mill with nine inch stroke for tubular wells.
